- Notes.**—Column (3) Give the average number of workmen employed during the month previous to the day on which the strike or lock-out occurred. While reckoning the average, omit the days on which the attendance was not normal for reasons other than individual reasons of particular workmen. Thus days on which strike or lock-out occurs or communal holiday is enjoyed by a large section of workers should be omitted.
- Column (4) If say, 200 workers in a factory strike work and in consequence the whole factory employing 1,000 workers has to be closed then, 200 should be shown under "directly" and the remaining under "indirectly". If the strike of 200 workers does not affect the working of the other departments of the factory, the number of workers involved would only be 200, which figure should appear under "directly" and column 'indirectly' would be blank.
- Column (8) Give the causes of the dispute as well as the immediate cause that led to the strike or lock-out.
